

TN-9001 假货识别澄清函

近期市场上有关于美国 INTERFACE 公司用于汽轮发电机等高温、蒸汽场合的密封垫片 TN-9001 “假货识别”的相关文章，我司联合美国 INTERFACE 公司特做出以下澄清：

- 一、目前国内市场上所有 TN-9001 型号的材料全部在美国生产。
- 二、TN-9001 的规格有卷材及板材两种，其中卷材的标准厚度有：0.4mm, 0.5mm, 0.8mm, 1.0mm, 1.2mm, 1.6mm；板材的规格为 1650x1650(mm), 厚度有：1.5mm, 2.0mm, 3.0mm。
- 三、卷材的印刷字样为 TN-9001 Interface Solutions Inc, 为抄取法生产，表面较为光滑（图一）。板材印刷字样为 Interface Solutions made in USA, 为 HYDRO-FUSED 法生产，表面有纹路（图二）。两者的制作工艺不同，故有细微区别。

- 四、上海索拓密封材料有限公司为美国 INTERFACE 在中国的独家授权经销商，近期有公司伪造进口报关文件、原产地证明、经销授权书等相关文件在国内非法经销美国 INTERFACE 部分型号材料。我司联合美国 INTERFACE 公司将保留追究其法律责任的权利。

Clarification Letter

Recently, there are articles on some website teaching how to recognize real Interface's gasket material TN-9001. TN9001 can be applied to Steam turbine generator which has a high-temperature steam environment . Hereby, Sealtex and Interface jointly release claim as follows:

1. At present, all Interface's gasket material TN9001 appeared in Chinese market is produced in Interface U.S.
2. There are two types of TN9001 gasket material: rolled and sheet. Thickness available for rolled type are: 0.4mm, 0.5mm, 0.8mm, 1.0mm, 1.2mm, 1.6mm, for sheeted type are: 1.5mm, 2.0mm, 3.0mm.
3. Trademark on the back of rolled type is **TN-9001 Interface Solutions Inc.**, it is made by a beater addition process and has a comparatively smooth surface.(see picture1)
Trademark on the back of sheet type is **Interface Solutions made in USA,** it is made by a HYDRO-FUSED process and has some texture and emboss on the surface.(see picture2)

图二

4. Shanghai Sealtex is the only authorized distributor in Chinese market by Interface. Recently some companies are selling interface's material in Chinese market by providing fake customs clearance paper, fake material certification and fake Interface authorization letter. Sealtex will, jointly with Interface retain the right to pursue law responsibility of these companys.
